## Price revisions Part.1

Due to high raw material and fuel prices and rising manufacturing and logistics costs, we have come to the conclusion that we cannot respond to the situation through self-help efforts alone and must ask for price revisions for following products. We kindly request all distributors & retailers to follow the procedure for the price revision. If you have any questions, please do not hesitate to contact the international sales.

**New prices are effective the April 1st.**

Any order placed before March 31st, 2023 will be booked at the current pricing, so please consider orders by then.
