1

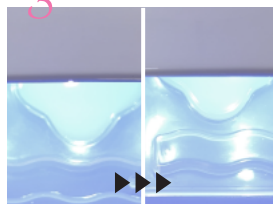

Add resin and 1-2 drops of color to each pallet to create three Sirius colored resins.

2

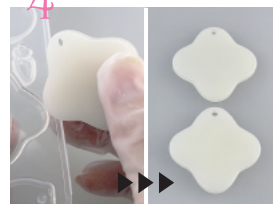

Fill the mold to the top with Milky Way color resin.

3

UV-cure 1 min per side. If tacky, add 30 sec.

4

Once cooled, carefully remove the resin from the mold. Make two pieces.

5

Pour the orange resin into the flower mold. Cure 1 min per side and remove it from the mold.

6

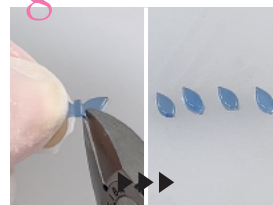

Repeat to make 6 flower parts.

7

Pour blue resin into tulip leaves. Cure 1 min per side. Make 2 pieces.

8

Using nippers to cut and shape the leaf sections, creating 4 leaf parts.

9

Pour blue resin into the wave section. Cure both sides for 1 min each. Make two parts.

10

Glue the flower, wavy, and leaf sections together.

11

Glue a pearl to the center of the flower and let it dry.

12

Attach to earring findings with a jump ring.
