Product information as of October 2019

1

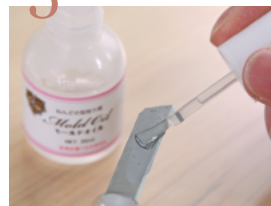

Knead clay well.

2

Make 2 balls, 2 cm in diameter each.

3

Put some Mold Smoother on blade of cutter knife.

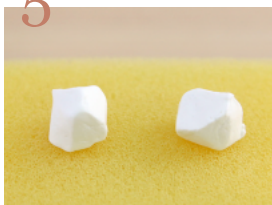

4

Cut off the curved part to make the surface be flat.

Do not cut it too much, it will be smaller by shrinking after drying.

5

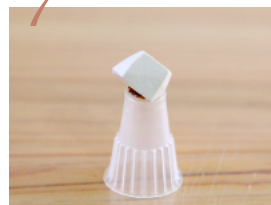

Dry for 1-2 days.

6

Smooth the surface and remove the scrape well.

7

Place a piece on the top of stand.

8

Tap the color on top.

9

Dry it.

10

Tap the uncolored part and dry it.

11

Apply the glue with toothpick.

12

Fix the earring parts.
