Designed by Kimura Premium

Product information as of August 2017

<Material>

- UV-LED Resin "Star Drop" hard type
- Threads - lint
- Elastic hair tie

<Tool>

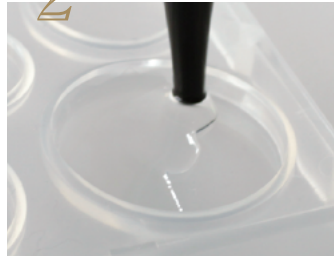

- UV-LED handy light
- Soft mold <Round Plate>
- Jewel mold mini <part>
- Mixing stick
- Sandpaper
- Scissors

1

Cut threads in appropriate lengths with scissors.

2

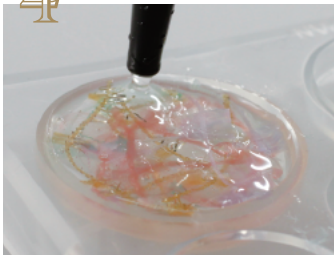

Make the first layer in a mold. Pour a slight of resin and place it under the UV-LED lamp for 30 seconds.

3

After filling a mold half-full with resin, embed threads in and cure it for 30 seconds.

4

Fill the mold full with resin and cure it in 30 seconds.

5

After cooling it down, take it out.

6

Sand the round plate with sandpaper to have matte texture.

7

Make a hair band cap with resin, using the jewel mold mini.

8

Pass a hair tie first, then set the hair band cap with resin.
