- Clear sheet/holder
- Permanent color maker: black, light green, and light pink

Products' information above is updated in March 2019.

1

Make pink* resin and white one with UV-LED Hard putting a drop of each liquid color.
*pink and white one drop of each

2

Fill a cat shaped mold half-full with white resin. Fill a ribbon mold half-full with mixed colored resin. Cure them in a minute.

3

Repeat step2 to get full with resins. Cure each mold in 1 minute x 2 times, total in 2 minutes. After cooling down, take them out from mold.

4

Draw cat' s face with permanent makers. When fail to draw, erase with tissue in ethanol.

5

Tape a sticky side of masking tape up on a clear sheet.

6

Place the cat on the tape and coat the face with plenty of resin.

7

Put a ribbon on the face and cure it in a minute.

8

Pass hair rubber first, then set an elastic hair band cap on back side with resin.
